Health conditions studied**1****Description of health condition studied**

Diabetes Mellitus type II

ICD-10 code

E11

ICD-10 code description

Non-insulin-dependent diabetes mellitus

Primary outcomes**1****Description**

Glycosylated hemoglobin

Timepoint

Before intervention, three months after intervention

Method of measurement

Blood test

2**Description**

Life style

Timepoint

Before intervention, three months after intervention

Method of measurement

Life style Questionnaire

Secondary outcomes**1****Description**

Body mass index

Timepoint

Before intervention, three months after intervention

Method of measurement

Weight (kg)/ height (m)²

2**Description**

Blood Pressure

Timepoint

Before intervention, three months after intervention

Method of measurement

Sphygmomanometer

Intervention groups**1****Description**

In the experimental group using the software that is installed on their mobile phone, learning about diabetes,

exercise, nutrition, foot care, diabetes and prevent complications they are given. Patients can also have your insulin levels and blood sugar in the application record.
