Implementing a Mental Health Intervention Program for Oocyte Donor Women

Protocol summary

Study aim

Implementing a mental health intervention program for oocyte donors

Design

Quasi-experimental study, 2 Groups, as concurrent on 72 Oocyte donors

Settings and conduct

The program is designed as a semi-experimental study on Oocyte donors eligible to enter the study, which will be conducted in the Isfahan and in the fertility infertility center. Before the donation process begins, the mental health of the oocyte donors is measured using the DASS-21 questionnaire. After implementing the program, the mental health of oocyte donors is measured again with the mentioned questionnaire.

Participants/Inclusion and exclusion criteria

Iranian Healthy oocyte donors

Intervention groups

First, in the control group and before the implementation of the mental health intervention program, the mental health of Oocyte donors are measured using the DASS-21 questionnaire. Then, The intervention program that designed based on interviews with Oocyte donors and service providers to them, is implemented in order to improving the structure of service delivery. After then, the mental health of Oocyte donors is measured again using the DASS-21 questionnaire.

Main outcome variables

Depression, Anxiety and stress

Title and more details about the data/document

Data on the main consequences of depression, anxiety
and stress are generally shared.

When the data will become available and for how long

Start access 6 months after printing results

To whom data/document is available

Everyone has access.

Under which criteria data/document could be used

Available for systematic review and meta-analysis.

From where data/document is obtainable

For information, applicants can refer to the library of the
Faculty of Nursing and Midwifery, Isfahan University of
Medical Sciences. Also, the resulting articles can be sent
by e-mail to adibme921@gmail.com, if needed.

What processes are involved for a request to access data/document

After publishing the articles and publishing the obtained
dissertation, the applicant can access the desired
information by referring to the library of Faculty of
Nursing and Midwifery, Isfahan University of Medical
Sciences or by requesting email to
adibme921@gmail.com.
